Re: Cedar Chemical Corporation Superfund Site, West Helena, Phillips County, Arkansas,
SSID No. 06NH

Dear Sir/Madam:

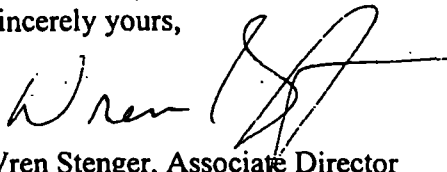

The U.S. Environmental Protection Agency (EPA) seeks cooperation from Rhodia in providing information and documents relating to the Cedar Chemical Corporation Superfund Site (Site). The information obtained will aid the EPA in its investigation of the release or threat of release of certain hazardous substances, pollutants or contaminants at this Site. Rhodia's response will also help the EPA develop a better understanding of activities that occurred at the Site.

This information request is not a determination that your company is responsible or potentially responsible for contamination that occurred at the Site. The EPA is sending this letter as part of its investigation of the Site and does not expect your company to pay for or perform any site-related activities at this time. If the EPA determines that your company is responsible or potentially responsible for response activities at the Site, your company will receive a separate letter clearly stating such a determination as well as the basis the EPA has for the determination.

The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Section 104(e), 42 U.S.C. § 9604(e), gives the EPA the authority to require the Rhodia to respond to this information request (see Enclosure 1). We encourage your company to give this matter its full attention, and *we respectfully request Rhodia respond to this request for information within thirty (30) days of its receipt of this letter.* You may designate another official of Rhodia with the requisite authority to respond on behalf of the company. However, failure to respond to this information request may result in the EPA seeking penalties of up to \$37,500 per day of violation. In addition, furnishing false, fictitious or fraudulent statements or representations is subject to criminal penalty under 18 U.S.C. § 1001.

If you have any questions regarding this letter, contact Mr. Nixon at (214) 665-2203. For legal questions concerning this letter, please have your legal counsel contact Mr. Marvin Benton, Attorney, at (214) 665-3190. Thank you for your attention to this matter.

Sincerely yours,

BACKGROUND INFORMATION

The Site is a former specialty chemical manufacturing facility located on about 48 acres of property in West Helena, Arkansas. Its business address is 49 Phillips Road. The Site is bounded by Arkansas Highway 242 to the northwest, the Union Pacific Railway to the northeast, and other industrial park properties to the southeast and southwest. Residential areas are located within one half mile southwest and northeast of the Site. The Site consists of six separate processing units, laboratories, a finished goods warehouse, a storm water pond, a wastewater treatment plant, a warehouse and various other buildings. The Site was originally constructed in 1970 as a Propanil manufacturing facility by the Helena Chemical Company. The Site was owned and operated by Cedar Chemical Corporation from approximately 1986 until October 2002. Environmental issues associated with the Site included abandoned chemicals, buried drums, a constructed drum vault filled with unknown chemicals, ground water contamination, surface and subsurface soil contamination, and an abandoned storm water and wastewater treatment system. There were a number of hazardous chemicals present at the Site. These substances included, but were not limited to, acetic acid, benzoic acid, carbon tetrachloride, butyl amine, copper, copper cyanide, and sodium cyanide.
